

CAHF NURSES COUNCIL

Thank you for the honor to serve as the Chair of CAHF's Nurses Council. I am looking forward to representing you in this position over the next two years and need your input to make sure the Council speaks for you.

The greater our numbers, the greater impact we have. Every nurse in a CAHF member facility is eligible to become a Nurses Council member. This membership is free of charge. The Council needs your expertise, experience and participation as CAHF seeks nurse input on complex facility based and industry wide issues.

The purpose of the CAHF Nurses Council is to promote the profession and practice of long-term care nursing by promoting quality care of residents through the development and maintenance of high professional standards; exchanging ideas and information on nursing practices through regular meetings, publications and programs; and promoting an awareness among the general public and other members of the health care profession of the specific responsibilities of nurses in long-term care and the healthcare continuum.

You may obtain your membership application from this website. Please complete the form and return it to the CAHF office. There are no limits on the number of staff members from one facility that may participate in the Council. All are welcome. If you are not currently affiliated with a local Nurses Council chapter, we will help you find one. If you do not have a chapter in your area, we would like to help you institute one. There are numerous tools available to assist you in this endeavor. If you have questions, please do not hesitate to contact me or CAHF staff member Jocelyn Montgomery who functions as the Council's liaison. Jocelyn may be reached at (916) 441-6400, ext. 214 or through this website's email system.

Your free membership in the CAHF Nurses Council will enable you to obtain significant discounts on health insurance, educational programs, travel, personal finance and many other significant benefits and services. You will join an extraordinary league of knowledgeable, committed and visionary professionals, paving the way for quality care today and for the future.

Your active participation in the CAHF Nurses Council will bring you together with other nurse leaders in long term care. Together we can work toward making a difference in our facilities and in our industry to improve the daily lives of the people we serve. You provide an invaluable resource to CAHF members, the nursing profession, and to the citizens of California. [Join us and help promote long-term care and the quality care we all give in our individual facilities.](#)

Sincerely,

Pamela Powell
