Attachment B

DEFAULT PROCESS FOR REIMBURSEMENT

REIMBURSEMENT:

The process for reimbursement during times of disaster will be conducted as outlined below. However, the Healthcare Coalition Executive Council policy group may convene to make mutually agreed upon modifications to this document.

Loaned Equipment:

The receiving healthcare facility shall return to the donor facility any and all equipment borrowed during the time of a disaster. Equipment shall be returned to the donor facility in the same condition in which it was received in a timely manner. The receiving healthcare facility shall also pay for any costs related to shipping the equipment back to the donor facility.

Loaned Supplies, Materials or Pharmaceuticals (Consumables):

The receiving healthcare facility shall return to the donor facility as soon as feasibly possible an exact replacement inventory of borrowed consumables. It shall be the receiving healthcare facility's responsibility to pay for any costs related to shipping the consumables back to the donor facility.

Loaned Personnel:

The receiving healthcare facility shall reimburse the donor facility compensation for all borrowed personnel during times of disasters. Reimbursement rates shall be based on the current compensation rate for personnel as provided by the donor facility. The receiving healthcare facility is only responsible to reimburse wages for personnel that are specifically requested. Personnel that show up to assist without being specifically requested shall be considered volunteers.
