

# Engineer Inspection List

**For the person doing the inspection:** Label this form and fill it out in the same way as for the *Nursing Inspection List*.

**For the Falls Engineer:** A member of the nursing staff has checked resident rooms and equipment for safety problems. This is the list of things they have found that you need to inspect and repair. Please do all the tasks that have a ✓ beside them for each room and bed number. Safety problems in common areas and with common equipment are listed on the back of this page.

UNIT:	DATE:	ROOM NUMBER:										Notes:
SIGNATURE:		BED:										
<b>1: Paths</b>	1. Make tiebacks for divider curtains.											
	2. Tie electrical cords out of path (TV, phone, heater)
