### **California Skilled Nursing Providers Receive National Quality Award**

*The number of facilities recognized nearly tripled over 2022*

**SACRAMENTO, CA** – Eleven skilled nursing providers in California have earned a special national distinction. The American Health Care Association (AHCA)/National Center for Assisted Living (NCAL) National Quality Awards Program has announced that these facilities received the Bronze Quality Award. In 2022, four California facilities achieved this honor.

The program involves a rigorous three-level process that evaluates the capabilities of long-term care organizations against nationally recognized standards for excellence. The program helps facilities identify critical areas for improvement, implement a plan to be stronger, resilient and more successful.

Each progressive award level requires a more detailed demonstration of superior performance. This year's *Bronze – Commitment to Quality* award winners include the following:
