

California Long-Term Care Residents

HOMES SERVING PERSONS WITH DEVELOPMENTAL DISABILITIES

Subdivided into formal categories, "developmental services providers" is a professional term which identifies facilities, licensed by the California Department of Public Health, which provide services to persons with developmental disabilities. These services include, but are not limited to, training and support in life skills such as mobility, socialization, employment and recreation. There are more than 1,174 licensed developmental services providers in California (including free-standing facilities and distinct part units of state hospitals.)

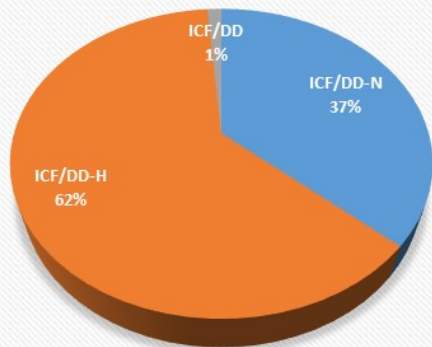

LICENSURE CATEGORIES

Intermediate Care Facility for Persons with Developmental Disabilities (ICF/DD) – Facilities with 16 or more beds serving individuals who may have intermittent or continuous needs for nursing care. There are approximately 15 ICF/DDs in California – 10 free-standing, 4 distinct-parts (DPs) of state hospitals and 1 DP of a skilled-nursing facility. **Bed Count: 2,757**

Intermediate Care Facility for Persons with Developmental Disabilities-Habilitative (ICF/DD-H) – Facilities of 15 beds or less serving individuals who may have intermittent need for nursing care. The emphasis is on enhancing or preventing regression of intellect, functional skills and the emotional well-being of the person. Typically, care is provided in a group home setting. 97 percent of California's 721 ICF/DD-H facilities contain six or fewer beds. **Bed Count: 4,455**

Intermediate Care Facility for Persons with Developmental Disabilities-Nursing (ICF/DD-N) – Facilities of 15 beds or less which serve persons who have continuous needs for nursing care for monitoring of medications or conditions such as epilepsy. More than 90 percent of ICF/DD-N clients utilize wheelchairs. There are approximately 423 ICF/DD-Ns in California. **Bed Count: 2,605**
