

Since 1979, NES has helped healthcare facilities nationwide with tax credit programs and voluntary benefit solutions that help retain employees and save money. We are known for our excellent customer service, integrity and knowledge.

"NES has consistently provided our facilities with supreme service. Their people are known by the unobtrusive way in which they perform their duties and by their responsiveness when we need them. In every way, their service meets the highest professional standards."

Maury AaronOwner, Dynamic Healthcare

We help employees live better lives

NES helps put money into the pockets of lower-earning employees by helping them access tax credits. Our Voluntary Benefits programs help bridge gaps in existing coverage and are a cost-effective way to give your workers the support they need.

We help you save money

If your business relies on entry level workers, you know what a burden employee churn can be. NES enrollment offerings help reduce employee turnover, which can be a significant drain of time and money. Plus, NES helps your business obtain tax credits for hiring qualified workers.

We help you look good

Employees who feel cared for and supported are happier and more productive workers. They feel more connected to your company and appreciate your leadership.

National Enrollment Services Inc.

The NES difference

At NES, we take particular care to support you and your employees. We design the best voluntary plans available. And if any customer service issue comes up, our multilingual call center is here to help. We train our team of enrollers to make employees feel supported, cared for and never pressured.

Our multilingual call center is here to help with any customer service issue in these languages:

- English
- Spanish
- Creole
- And more

Earned Income Tax Credit (EITC)

Most lower-earning employees lose out on thousands of dollars available to them through EITC. We help educate and assist those who qualify for this program to put money in their pockets.

"Every penny counts. When I found out I get money back, I was finally able to afford insurance. My employer really takes care of me - I'll be here for a while."

Mandy Williams *Nursing Aid*

"Thank goodness I had this coverage!
I was off work for 11 months and so
relieved that my bills were taken care of
while I was healing. NES' call center was
so helpful with the process during that
time too. The only thing I needed to do
was take care of myself."

Patricia Lee CNA, Nurse Assistant

NES is based out of Chicago, with multilingual representatives across the United States.
