

**The California Association of Health Facilities: Quality Care Health Foundation is proud to partner with Relias, a nationally recognized leader in healthcare assessments and learning.**

Maintaining high quality, changing regulations, maximizing reimbursements, and reducing staff turnover are ongoing challenges in the post-acute landscape. Relias offers proven solutions to help you improve outcomes, reduce risk, and improve team performance.

### **Transform Your Training and Staff Development**

Relias provides specialized training and personnel assessments to meet the needs of skilled nursing facilities, assisted living communities, home health and home care, and hospice and palliative care providers.

Relias offers comprehensive online training that meets regulatory requirements as well as staff development needs from the convenience of a single learning management platform. This simplifies the delivery, tracking and reporting of all staff learning.

In addition, Relias offers personnel assessments and other tools to help you understand what areas need improvement, personalize learning for knowledge and skills development, and empower high reliability across your organization.

### **Save Time and Money**

Working with Relias gives you access to high quality training on demand, so you can reduce the number of costly in-person trainings and save time spent on managing and tracking training attendance and completion. Plus, The Alliance's partnership provides you with a discount on your Relias subscription.
