**CAHF Welcomes TruLab Dx as a
New Preferred Partner in Precision Diagnostics**

SACRAMENTO – The California Association of Health Facilities (CAHF) today announced a new Preferred Partner agreement with TruLab Dx, a CLIA-certified diagnostics laboratory based in Murrieta, California. The partnership supports CAHF’s mission to advance quality care across skilled nursing and post-acute facilities, giving members access to TruLab Dx’s precision diagnostics and responsive service model.

TruLab Dx is proud to bring advanced molecular diagnostics, antimicrobial stewardship, and personalized support to member facilities across California. The company is recognized for advancing precision testing in molecular diagnostics, specializing in high-complexity molecular and toxicology diagnostics. TruLab Dx provides accurate, rapid testing across the conditions that most impact long-term care populations, including but not limited to UTIs, vaginitis and STIs, respiratory pathogens, and wound and skin Infections.

Most results are delivered within 24-72 hours, with STAT availability for urgent needs. TruLab Dx provides customizable workflows to match each facility’s protocols, staffing, and patient population with direct access to the TruLab Dx team.

“This partnership with TruLab Dx will give our members better access to timely, reliable lab services that support clinical decisions and patient care,” said CAHF CEO/President Cassie Dunham. “Having a trusted partner with advanced testing capabilities helps ensure our facilities can provide more personalized care and reduce risks such as adverse drug events.”

Through this partnership, CAHF members will benefit from:

- Faster test ordering and results for quick clinical decision-making

- Comprehensive PGx testing programs tailored for long-term care populations
- On-call clinical support and education for facility medical staff
- Medication insight through PGx testing and pharmacist support
- A HIPAA-compliant LIMS platform that simplifies test ordering, tracking, and care coordination
- Payer expertise, serving Medicare, Medi-Cal, and most commercial plans to support timely access and reimbursement with transparent billing.
- A phased statewide rollout reaching all of California's 58 counties within the next 12 months.

"We're proud to be selected as a CAHF Preferred Partner," said Stephen T. Crawford, Director of Strategic Development at TruLab Dx. "Our focus is on redefining laboratory services for skilled nursing facilities by delivering precision testing, reliable results, and direct clinical support. Together with CAHF, we look forward to improving outcomes for providers and residents across the state."

As part of the rollout, TruLab Dx will coordinate with CAHF to provide educational sessions, onboarding materials, and regional support to ensure members have seamless access to services statewide.

Founded in 1950, the California Association of Health Facilities (CAHF) is a non-profit professional organization representing nearly 900 skilled nursing facilities and 420 intermediate care facilities for individuals with intellectual disabilities. CAHF is the largest provider of continuing education for long-term care professionals in California, facilitating continuous quality improvement for providers and improved outcomes for residents.

TruLab Dx is a CLIA-certified, multi-specialty molecular diagnostics laboratory based in Murrieta, CA. Serving providers in 48 states, TruLab Dx offers pharmacogenomics, toxicology, and infection panels with a focus on precision testing. Their mission is to support clinicians with accurate, timely diagnostics and personalized reporting to improve treatment outcomes.
